

Game 1

20 Trials, 20 seconds each

Trial # 00

Three possible urns (R/G/B)

The computer randomly selects one

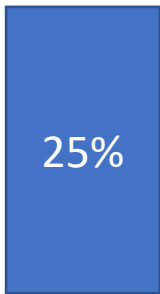

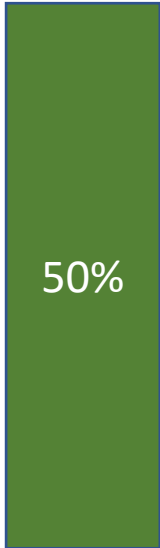

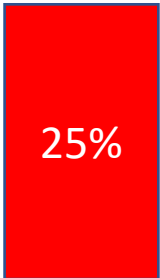

Each urn has 100 balls

You know the composition of each urn

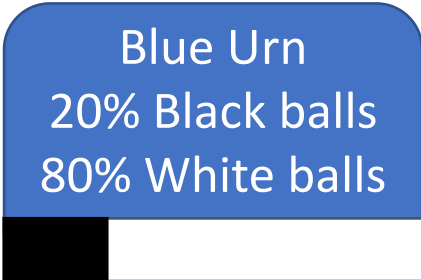

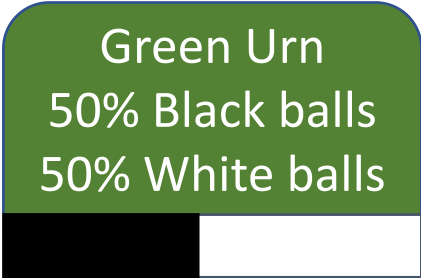

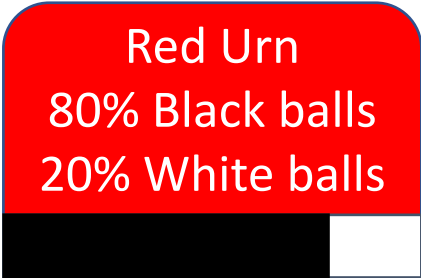

You observe one ball from the selected urn

Make your guess about the probability of each urn being the selected one

Game 2

30 Trials, 20 seconds each

Trial # 00

Similar to previous game

Make your guess about the probability of each urn being the selected one

Also, choose between the “grey urn” and the “color urn”

”Grey urn” gives a known number of points

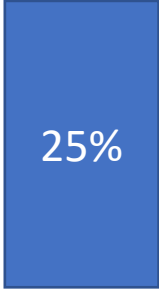

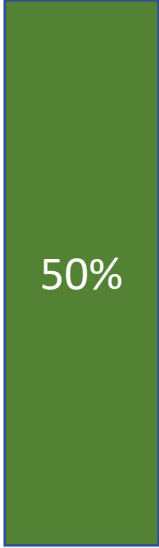

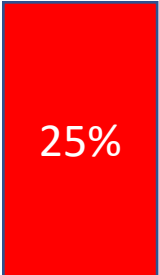

”Color urn” gives 30/55/80 points based on the true color

30 points

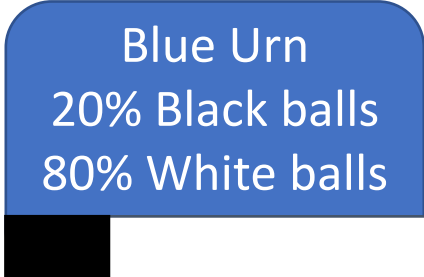

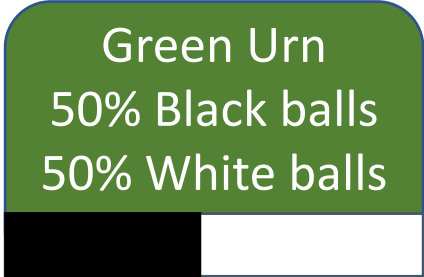

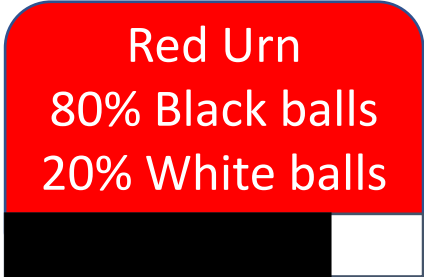

55 points

80 points
